

TRANSPORTATION IN INCLEMENT WEATHER

School district buses will not operate when weather conditions due to fog, rain, snow or other natural elements make it unsafe to do so. Because weather conditions may vary around the school district and may change quickly, the best judgment possible will be used with the information available.

The final judgment as to when conditions are unsafe to operate will be made by the superintendent. The superintendent will be assisted by the actual “on location” decisions and reports of the drivers.

Several drivers each year will be specifically designated to report weather and road conditions by bus radio when requested to do so. Employees, parents and students will be notified by an emergency messaging system when school is cancelled or temporarily delayed. When school is cancelled because of weather anywhere in the school district, all schools will be closed.

When weather conditions deteriorate during the day after school has begun, cancellation notices will be announced by an emergency messaging system. Students will be returned to their regular drop-off sites unless weather conditions prevent it. In that case, students will be kept at or returned to school until they are picked up by their parents or another designated responsible adult.
